ISI: EDUCATING FOR LIBERTY

Inspiring college students to discover, embrace, and advance the principles and virtues that make America free and prosperous

Since 1953 the Intercollegiate Studies Institute (ISI) has been teaching future leaders the timeless principles that make America free and prosperous—the core ideas behind the free market, the American Founding, and Western civilization that are rarely taught in the classroom.

Today ISI has a network of **more than 70,000** members, supporters, and subscribers around the country. This includes tens of thousands of the brightest conservative college students and professors, along with donors and subscribers who as a group are well above average in income and education.

ISI is a nonprofit, nonpartisan, tax-exempt educational organization. The Institute relies on the financial support of the general public—individuals, foundations, and corporations—and receives no funding or any other aid from any level of the government.
