ISI: EDUCATING FOR LIBERTY

Inspiring college students to discover, embrace, and advance the principles and virtues that make America free and prosperous

Since 1953 the Intercollegiate Studies Institute (ISI) has been teaching future leaders the timeless principles that make America free and prosperous—the core ideas behind the free market, the American Founding, and Western civilization that are rarely taught in the classroom.

Today ISI has a network of **more than 50,000** members, supporters, and subscribers around the country. This includes tens of thousands of the brightest conservative college students and professors, along with donors and subscribers who as a group are well above average in income and education.

ISI is a nonprofit, nonpartisan, tax-exempt educational organization. The Institute relies on the financial support of the general public—individuals, foundations, and corporations—and receives no funding or any other aid from any level of the government.

MODERN AGE

Founded by Russell Kirk in 1957, *Modern Age* is, in the words of historian George H. Nash, “the principal quarterly of the intellectual right.” University of Oklahoma scholar Wilfred McClay calls it “required reading for those who want to engage conservative thought at a high level.” Now under new editor Daniel McCarthy, *Modern Age* is in a position to attract the leading thinkers from all along the conservative spectrum to apply timeless principles to the specific conditions and crises of our age.
